Hi Diane,

The draft RAO file is attached for your use. The file is in track changes to see the text evolution and has a name showing contributors. Progress has been made on RAO2, but I think it still needs some adjustment.

Reply or call me with questions.

Thanks,  
Aaron

Hi Diane,

As I just discussed with you, I will send the next draft of the RAOs to you this afternoon. We're aiming to have the draft file to you before you leave about 4 pm for the CAG meeting. After the RAO file is sent I'll send the draft file on the CSTAG memo responses.

Thanks,  
Aaron

I sent this before I finished writing. When can I see the next draft of RAOs? I would like to send them to NJDEP for discussion on Monday.

As I mentioned on the call yesterday, Rob would like to discuss a few of our comments on the RI RTCs, specifically 40, 41 and 46, he suggested May 16<sup>th</sup> for a call. I am free in the afternoon that day.

He also said we can have the June 5<sup>th</sup> Bioaccumulation model meeting in Newark.
